

# CISCO CCNA CERTIFICATION

## Give your career an upgrade with a Cisco CCNA Certification.

Gain the necessary training to prepare for the Cisco CCNA Certification. In this course you will learn the fundamentals of computer hardware, software and operating systems. This includes developing a practical understanding of the operation of modern TCP/IP networks built with Cisco hardware. At the end of this training program, you will be ready to sit for the exam and earn your Cisco CCNA Certification.

**Training Funded by the Joint CWA/CenturyLink  
Partnership in Education (PIE) Program!**

### COURSE TOPICS

- Networking Fundamentals
- CISCO IOS Configurations
- LAN Switching Technologies
- IP Addressing & Subnetting
- WAN Routing Technologies
- LAN / WAN IP Network & Services
- CISCO Routers & Switches

This course is taught with Brandman's LIVE ONLINE training format using a video communications software. Students receive the same high-quality training as found in a traditional classroom setting. Join us from anywhere with an Internet connection.
